

Cherokee County, Georgia, 1850 Mortality Schedule

Mortality schedules record deaths in the year preceding the taking of the census. For example, the 1860 mortality schedules include persons who died between June 1, 1849 and May 31, 1850. For each person, the following information is listed: name, age, sex, marital status if married or widowed, state or country of birth, month of death, occupation, cause of death, and the length of the final illness.

Federal mortality census schedules were completed by the population census enumerators in 1850-1880. The intent was to register all those dying within the year (July 1 1849 to and including 30 June 1850). The Georgia Schedules have been microfilmed and are part of the National Archives microfilm Series T655, reel 7.

Only name, age, death month, and cause of death are recorded in the table below. However, it would behoove readers to seek out microfilm of the actual census mortality schedule for additional information (sex; color (White, Black, or Mulatto); free or slave; married or widowed; place of birth; profession, occupation, or trade; and number of days ill.

"n.r." indicates that the information was not recorded.

Name	Race	Age	Place of Birth	Month of death	Cause	Year
(Slave) Barnsey [?]	Black	33	S.C.	Jul	poisoned	1849
(Slave) Daniel		7		Feb	Drowned	1850
(Slave) Infant		8/12	[n.r.]	[n.r.]	smothered	1849/1850
(Slave) Infant	Black	11 days	Ga.	Mar	hives	1850
